Special Dispatch to The Tribune: WASHINGTON, Oct. 8 .- Herewith is the full text of the President's peace note of inquiry transmitted to Germany today through the Charge Cape Girardeauan Is Now In D'Affairs of Switzerland:

"Department of State, Oct. 8, 1918 "Sir:" I have the honor to acknowledge on behalf of the President your not of October 6th, enclosing a communication from the German Government to the President, and I am protraced periods, which order in-| instructed by the President to request you to make the following communication to the Imperial German Chancellor: "Before making a reply to the request of the Imperial German Government, and in order that the reply shall be as candid and straightforward as the momentous interests involved require, the President of the United States deems it necessary to tioned, close their doors and suspend accepts the terms laid down by the of the note of the Imperial Chancellor. Does the Imperial Chancellor mean that the Imperial Government accepts the term slaid down by the President in his address to the Congress of the United States on the 8th

of January last, and in subsequent nying them the right to loiter after addresses and that its object in entering into discussions would be only to agree upon the practical details of their aplication? "The President feels bound to say with regard to the suggestion of an

armistice that he would not feel at liberty to propose a cessation of arms to the Governments with which the Government of the United States is associated against the Central Pow ers, so long as the armies of those Powers are upon their soil. The good faith of any discussion would manifestly depend upon the consent of the Central Powers immediately to withdraw their forces everywhere from invaded territory.
